**Theme of the Seminar**

Since the time the discipline of Anthropology has started this journey of trying to understand human beings, we are encountering more human questions. These questions have led to significant contributions in all fields of Anthropology. Over the years the human question has led to a broader field of research in ever changing scenarios that continue to affect humans. New paradigms and new directions of research are being explored by anthropologists. This seminar will provide an insight into new fields and trends in research work being undertaken in India. We invite paper based on the following sub-themes by that highlights the theme, "Anthropology of Contemporary Era"

- Tribal development in India
- Indigenous Knowledge system
- Medical Anthropology
- Indigenous health care systems
- Globalization
- Urbanization, Social transformation
- Indian Diaspora
- Human rights
- Human displacement and exploitation
- Weaker Section of the Society
- Dalits in India
- Schedule castes and Schedule tribes
- Human growth and nutrition
- Human variation and diversity
- Genetic diversity in India.
- Disease, obesity and health
- Forensic Anthropology
